With our miners that have been systematically designed to give you 3% daily ROI and 90% a month in BUSD (190% including your capital) plus our compounding features that enables you multiply your earnings. This is a great opportunity for anyone who desires to meet their daily and monthly financial target, with a verified and well structured Smart contract platform on the Blockchain.

ABOUT ABIRTRAGE MINERS

Arbitrage Miners is sustained by the continued Ai arbitrage trading going on in Mili seconds providing huge profits which is contributed to the community pools. Just like every other crypto token project, the Arbitrage Miners Bot would be further enhanced and fused when the multi token mining is launched, with the release of our own token, therefore, making it the first Ai to fuse both trading and mining capacity in one. However, Arbitrage Miners has an algorithm that doesn't allow participants to just keep earning nonstop but in Arbitrage Miners, each user account is recalibrated by the AI every 30days to maximize its efficiency and provides for sustainability.

ABOUT ABIRTRAGE MINERS

Arbitrage Miners also offers you an opportunity to increase your funds by taking long term advantage of our compounding features which keeps your funds locked in within the 30days period. In a world filled with numerous scam projects, Arbitrage Miners state of the art tools have come to change the entire narrative and allow all of her participants to make daily passive income with the highest form of safety and comfort.

30% RESERVED

30% of all deposited funds is reserved in a separate pool which serves as liquidity for our arbitrage trades.

ARBITRAGE MINERS TRADING POOL

The 30% arbitrage miners trading pool helps us to trade and generate more funds for the community liquidity pool. Our Super multi trade Ai Bot accesses funds from both the 30% reserve pool and our miners mainnet liquidity pool to match up all deposited funds in order to carry out trades continuously in a seamless and secured manner. Proceeds from these trades are further added into our liquidity pool for both profits payout and team bonuses.
